TRUTH AND LIBERTY.

TOMORROW IS EVENTFUL DAY.

Mitchell Will Meet Operators in Final Attempt to Arrive At an Agreement.

BITUMINOUS MEN SANGUINE.

In Charleston, W. Va., and Des Moines, District Conventions in Session Trying to Agree.

In the Anthracite Fields Order to Suspend Work Obeyed Almost to a Man-Outlook Rather Dark.

Indianapolis, April 2.-Although a half million members of the United Mine Workers of America did not resume work today, awaiting the grant. ing of their wage demands by the coal operators of the country, there is nothing at the national headquarters of the Union that would indicate anything unusual has happened. All of the officials are out of the city, and a corps of cierks and stenographers is in charge

the joint conference tomorrow. It was stated by both miners and operators that while it will be impossible to settle on the 1903 wage scale, as provided for in the Perry resolution at Indianapolis, an agreement will be reached on its equivalent. The first day of the strike passed off quietly. All the min-ers are out awalting the action of the joint scale committee.

A STORM CENTER.

Queenstown, Pa., April 2.—The storm center in the mining situation of this district is at Windber, where 4.000 men employed in the mines of the Berdind-White Coal company, paraded the streets today despite the fact that the company had posted notices granting the 1903 scale.

the 1963 scale.

The men are not organized, but efforts are being made to organize or unionize them, and it was declared today that they will demand not only the advance but will ask for an eight-hour day and check weighmen.

ALL WORK SUSPENDED. Wilkesbarre, Pa., April 2.—In compliance with the order of President Mitchell to quit work there was a total suspension of mining in the Wyoming region today. The engineers, firemen and pump runhers are at work as usual and in a few isolated cases, company hands are at work making reasy

TEACHERS FOR PHILIPPINES.

Hundred and Twelve New Americans To Begin Work June 10.

Washington, April 2.—One hundred and twelve new American teachers will begin their work in the Philippines public schools when their next session opens on June 10. Of these teachers opens on June 10. Of these teachers 100 are men and the 12 women are either wives, sisters or flances of men who are going to the islands to teach or are already employed in insular schools. The new teachers will, for the most part replace teachers, who are tired of the school work in the islands, having come back to this country, or went into other work in Manila. Hardships in the remote provinces have proved too much for women teachers and consequently few women are being employed at present and great care is taken not to send them where they will not have relatives and

ANNIVERSARY OF BALLOTING OF **WORKMEN A FARCE**

The Election in St. Petersburg Amounted to Little More Than a Formality.

GOOD DEAL OF BOYCOTTING

One Man Elected is in Prison, Another Declined Election for Fear Of Persecution.

St. Petersburg, April 2.-The elections of workmen within the limit of St. Petersburg proper were held yesterday, preceding the elections to the municipal convention which in turn will elect six members to the lower house of parliament. The balloting of the workmen, however, was almost a complete farce, as were the elections a fortnight ago, in the larger factories outside the city. The latters' representatives will participate in the pro-vincial convention and the former take part in the St. Petersburg municipal convention. Out of 67 establishments the workmen of 29 boycotted the elec-tions and of the remainder only the minority voted and of those elected about one-half were Constitutional Democrats and the other half Con-servatives or members of the "black hundred." as they are now popularly termed.

One man elected is now in prison and another declined to accept election for fear that it would subject him to

Oushakoff, one of the delegates chosen, is superintendent of the state printing office, and chief of the Independent Workmen's party which, like the famous Cubatoff organization. like the famous Cubatoff organization, is considered to be a creature of the ministry of the interior. The delegates of the workmen outside the city who had previously been elected simply went through the form of selecting candidates for the provincial convention. A number of them had been arrested since the elections and only 72 appeared at the meeting. They 72 appeared at the meeting. They chose four Progressives and four Conservatives.

CHOOSING CANDIDATES.

Moscow, April 2.—In the plebescite of Constitutional Democrats to determine on candidates for election to the lower house of parliament, Prof. Mouromizest and M. Kokoshine are far in the lead. Among the less prominent are Prince. Paul Delgoroukost, Prof. Manuilost, and Mm. Golovin and Teslinko.

INSURANCE MATTER.

Recorder Goff Instructs April Grand Jury to Take Them Up.

New York, April 2.—Recorder Goff, a the impanelling of the April grand jury in the court of general sessions today, instructed the jury to take up insurance matters. These matters, he said, had been directed to his attention by Judge O'Sullivan, who presided over the March grand jury. He said it appeared to him that the March grand jury had been properly instructed by both Judge O'Sullivan and Dist.-Atty. Jerome, that there was reasonable ground for the belief that there is available evidence, showing that crime had been committed in the insurance matter. He instructed the grand jury that it had untrammeled powers to act in the matter, as it saw fit.

BUSINESS PART OF BANNOCK, MONT., BURNED

Helena, Mont., April 2.—The business of the town of Bannack, one of Montana's first mining camps and the first capita of the territory, in Beaverhead county was practically wiped out by fire Sunday. The fire is supposed to have been of in cendiary origin. The total property loss is about \$10,000, including the following Clemens' saloon and dance hall, \$4,000 Rybeline's butcher shop, \$2,000; postoffice \$2,000. Archie Gibson's residence \$1,000. \$2,000; Archie Gibson's residence, \$1,000.

ILLINOIS BANK FAILS.

Peoria, Ill., April 2.—The bank of Teas Smith & Co., at Pekin, Tazwell county, failed to open for business today, having assigned to U. J. Albertsen, as trustee.

Trustee Albertsen issured a statemen today, in which he urged the creditors of the bank to avoid useles litigation as it would only prolong a settlement of the bank's affairs.

No official statement of assets and liabilities has yet been made. The liabilities, due to depositors, and other banks, are said to be in excess of \$400,000, against which there are assets of about \$25,000, a portion of which is worthless. The failure is due to these large sums of money advanced to the Smith wagon works, and the Smith plow shops, at Pekin, two large industries. These had been carried to such an extent that the bank could no longer continue in business. Neither has yet been affected by the failure. The bank was founded by Teas Smith in 1866 and had continued since as a private bank, with D. S. Smith as president, and Conrad Luppen as treasurer.

RENEWED DISORDERS AT LENS Lens, France, April 2.—Renewed strike gion. The strikers at Gangor today des-troyed a house with dynamite. There were no casualties. At Fouquieres and Hames, the strikers erected barricades which were charged by cavalry. One striker was

charged by cavalry. One striker was wounded.

Four thousand strikers marched in the procession today at Buray, department of the Nord. Troops and miners who had refused to strike barricaded the roads and drove back the strikers.

There are now about 41,000 men on strike. The salvabe work has not resulted in finding any other survivors of the district of March 10.

EIGHT-HOUR LAW

District Closed in Honor Of It.

Order Generally Prevails, Idle Men in Many Towns Discussing the

Pittsburg, April 2 .- Today being the anniversary of the granting of the eight-hour work day, almost every mine in the Pittsburg district was closed. Tomorrow, however, it is expected that the miners employed by the other local operators, will return to work and that all the miners in district No. 5 will be running before the close

Many of the others who have agreed to an advance of the wages of 5.55 per to an advance of the wages of 5.55 per cent wanted the miners to resume work immediately. Francis L. Robbins, representing the Pittsburg Coal company and the scale committee of the United Mine Workers appointed by the district convention last Saturday, met today for the purpose of signing the agreement for two years. The factional fight which has been in progress in the miners' organization for some time may cause trouble. Pause trouble.

Patrick Dolan questions the validity

of such an agreement as he still claims to be the president, but the opposition said he had been deposed. It is regarded as highly probable that the independents will grant the concession at the meeting to be held by them

As far as learned, good order prevails throughout the district. Dispatches from Bridgville, McDonald, Castle Shannon, Elizabeth and other mining towns along the Monongahela river and on the line of the Panhandle railroad, report the streets filled with the ldie men, quietly discussing the strike. All expect to resume work tomorrow.

In the Irwin field, the mines were in operation as usual and no trouble was aprehended. Although these mines are in operation in the "open shop" policy, every operator in the district, it is said, has signified his willingness to pay the advanced rate.

The same conditions were reported at the control of the control of

the times of the New York and Cleve-land Ass Coul company, where several thousand men are emploped. All were at work today and were receiving the 5.55 per cent increase.

The first operator to sign the new agreement was Lewis Findlay, the nines at Colliers W. Va., who signed at the miners' convention. Orders were once wired to Colliers to resume

CELEBRATING IN ILLINOIS Springfield, Ills., April 2.-This being hotiday among United Mine Workers the annual celebration of ecause the establishment of the eight hour day, no coal mines are being operated, President Perry, of the United Miners of Illinois, made the following state-

"I have been busy all morning, ansvering telephone calls, from operators all over the state, who are willing to sign the scale of 1903 as demanded by the miners. The prospect that a large number of mines will be in operation tomerrow is satisfying. "Williamson county operators are

MOTHER-IN-LAW KILLS HERSELF.

Nearly Every Mine in Pittsburg Despondent and in III Health She Cuts Her Throat With A Razor.

MANY TO RESUME TOMORROW. VICTIM MRS. M. A. BISHOP.

The Deed Was Committed While the Daughter Was Momentarily Absent From the House.

In a moment of mental aberation caused by a long siege of ill health today, at the/residence of her son-inlaw, C. H. Tingey, 922 east Park avenue. Preparations were being made Pittsburg Coal company and by several to have the invalid make a visit to the country, in the hope that her health would be benefited, and the fourney would have been made today but for the unhappy occurrence here with recited.

About 10:30 o'clock this morning, while her daughter, Mrs. Hyde Tingey, was momentarily absent from the house, for a skuttle of coal, the sick woman arose from her bed and secured her son-in-law's razor from a pantry shelf. Going into the basement of the dwelling, she slashed her throat with the sharp instrument. Mrs. Tin-gey soon entered the house, and find-ing her mother's bed empty, immediately began a search, which ended in the finding of the bleeding body of the the finding of the bleeding body of the dying woman. A doctor was summoned, but the lady was dead before his arrival. The police and Acting Coroner Dana T. Smith were sent for, and the latter, accompanted by Capt. Burbidge, went to the Tingey home, where the sad affair and the circumstances leading to it were carefully investigated. The remains were conveyed to the undertaking establishment of S. D. Evans, but it is not probable that an inquest will be held.

Mrs. Bishop was aged about 67 years, and was a native of England. She had resided for a number of years in Salt Lake, and with the exception of the daughter mentioned, had no relatives in this section.

SAYS TOWN IS SLOW.

Doubtful if Henry Phipps Will Make Any Particular Outlay.

A local real estate dealer, who had few moments talk with Mr. Phipps while he was here, reports that the visitor complained to him that the town was slow; and the impression left on the dealer's mind after the conversation, was that Mr. Phipps making any outlay here was doubtful. He had been in California where everything is on the boom, while Sait Lake is rather quiet in comparison. Moreover, whenever Mr. Phipps vists Sait Lake, sensational local papers immediately start their air castle factories to working over time, and have the magnate preparing to do things he had no intention of doing. Mr. Phipps pays no attention to such vagarles of reportorial imagination; but real estate dealers call attention to the fact that they do harm in infaming the anticipations of owners of certain properties adjoining properties belonging to Mr. Phipps, and resulting in a forcest rise in prices that only disgust him and make him feet the less inclined to enlarge his local holdings.

For instance, Mr. Phipps owns all of the frontage on Second South street between Commercial street and State street, with the exception of three pieces aggregating 80 feet, immediate east of Pium Alley, it is known that Mr. Phipps not so very long ago had in mind to acquire these three pieces and on the entire frontage erect one of the finest office buildings in the west. But the sensation-mongers got wind of what was being talked of, and their printed exaggerations so worked up the holders of these three lots that prices were asked that, it is claimed, put even Main street frontage to the blush, Mr. Phipps declined to be a party to this business, and the scheme was postponed. It has been postponed over we have a start and the scheme was postponed. he was here, reports that the visitor com-

If Mr. Phipps can secure those parcels of real estate at a reasonable figure he is likely to do something, but it altitudinous prices are held to the properties will remain on their owners, bands tiles will remain on their owners hands indefinitely. However, Mr. Phipps is drawing a good interest from his Sait Lake investments, and is in no need of feeling hurried.

A STRANGE STATEMENT.

I Will Live Until April." Said Mrs.

Derr, and on April 1 She Died. Between four and five months ago Mrs. Elizabeth Derr, mother of George W. Derr, was taken seriously ili. Her sickness continued without interruption through the winter. When members of the family spoke to and sympa-thized with her she would say, "Oh, never mind; don't be glarmed; I am ot going to die yet. I shall live until April. very ill and the worst was feared, she would repeat the same thought as to living until the dawn of spring, and would say over and over again, "I shall

ive until April; I shall live until Small wonder, then that there was concern in the Derr household yesterday when that month was ushered in. And it was not at all singular that the apprehension was heightened with the coming of the day the aged patient lapsed into a state of coma. It was soon evident that her condition had become very grave, and that the end was not far away. For hours her sleep was calm and peaceful, and while slumber yet touched her weary eyes, closed to open no more in this world, she passed across the dark river into

Washington, April 2 .- The suggestion that the projected 20,500 ton battleship which ie expected to be authorized at the present session should be named New York involving the abandonment of that name for the armored cruiser which was the flagship during the it towards the Atlantic. A high press-Spanish war of the Atlantic fleet, the most formidable naval force ever gath-ered under the American, has caused some commotion in naval circles. While realizing the policy of securing support for the navy by identifying the ships with great cities, many naval officers hold that for sentimental reasons, ships should not be christened with names of vessels that have been famous in their own time; that the latter should be permitted to retain for themselves what reputation they may have earned. The New York is set down as perhaps the most serviceable ship in the navy, ac-cording to the record. She has been always ready for the hardest and most unexpected service, and it is said of her that seven years after she went first into commission, she made the run from Boston to New York at an average speed of 20 knots, repeating easily her initial trial trip record, which is without precedent in the navy. After undergoing two years' repairs at the Boston navyyard the vessel will be commissioned practically a new ship, and the majority of naval officers believe that she should not be deprived of her name and saddled with that of an-other and lesser city, as must be the case, under the law, if any change is

HEAVY VOTE WANTED.

Chicago, April 2,-The utmost efforts were made today by all political parties to bring out as heavy a vote as possible tomorrow. The fight in several of the wards has reached a stage of intensity soldom equalled in this city These advocates of municipal owner ship and those opposed to it are using every inducement which can be relied on to influence voters. The municipal ownership league today appointed watchers for every polling place in the city to look after the interests of "the little ballot" as the ticket upon which are printed the three propositions re-garding municipal ownership has been named. Other factions opposed to municipal ownership have made similar arrangements. The chief fight centers around the proposition to sell \$75,000,000 of certificates for the purpose of purchasing the street railways. A 60 per cent vote is needed to carry this propo-

RAIN MEASUREMENTS 1.29.

Salt Lake Center of Disturbance In Intermountain Country According to Reports.

Precipitation General All Over the State-Bingham and Alta Get Very Heavy Snowfalls.

The storm which began Saturday evening, and ended this morning, covered the entire United States, part of British Columbia and northern Mexico. and the precipitation, as measured at this point, amounted to 1,29 inches, or nearly 16 inches of snow. The depth in the eastern and southern parts of the city was a foot this morning, the remainder of the fall having melted or come in the shape of rain. The storm center today, is over eastern Colorado, and progressing slowly eastward, pushing a high barometric area in front of ure is moving down here from the northwest, with enough moisture in it to promise a little more snow tonight, but with clearing weather tomorrow

and very likely warmer weather. There are no very low temperatures on the weather map today, and at this city the minimum was 28, with a maximum of 36 yesterday, while today, it is warmer, with the snow melting very fast, and walking very sloppy and unpleasant. The surrounding hills and mountains are as wintry looking as at any time during actual winter, and the roads are quagmires in many places. This will make it more difficult than ever for farmers to bring their hay into town, and is likely to cause a scarcity.
People have begun to talk more than
ever about coming floods, freshets and
washouts when the sun begins to exert
more power in the foothills and lower ranges, and an unusual season of high watre is anticipated. At the same time, the dry benchers are jubilant at the prospects, and feel sure of good crops.
